Subject: MoE Directive and suspension of On-Campus classes

Dear Colleagues

I hope this finds you well.

As you may already know by now, the Ministry of Education has issued a directive to all academic institutions to suspend their on-campus classes for a period of 4 weeks starting Sunday March 8, 2020.

The university scheduled Spring Break (March 21 to April 4) would fall during the last two weeks of the on-campus suspension period.

While there will be no students on campus, learning will continue for the next two weeks via distance learning utilizing Bb Learning Management System.

It is, therefore, expected that faculty members will continue to deliver the remaining learning experiences for their particular courses via distance learning utilizing Blackboard Learning Management System.

Faculty members need to discuss and review their plans for the remainder of their courses and their assessment with the concerned Dean/HoD for their approvals.

Thank you very much for your cooperation and support.

Regards,

Dr. Basem Alzahabi
President
